

1 INSCIENCE LOCAL NZQA TRAINING COURSES

Urine collection and drug screening for the Workplace 25458 and 25511

Course Time:	8.30 am to 4.15 pm or as stated above 6 NZQA Credits so you can claim 60 hours professional study time
Locations:	Locations are all central to a city area (parking available) and will be sent out with your course confirmation.
Included:	Comprehensive training manual, coffee & tea, morning tea & afternoon tea
	Refresher Courses also available as recommended every two years

InScience is in a sub-contracting agreement with Safety n Action, a private training establishment registered with NZQA to deliver and assess unit standards 25511 & 25458. This sub-contracting agreement has been approved by NZQA. Unit standards are reported to NZQA by Safety n Action

InScience NZQA Training for Unit Standards 25458 and 25511 is designed to help you become a fully competent practitioner of workplace urine sample collection and procedures to send a medicolegal sample to the laboratory for drug confirmation and to conduct AS/NZS4308:2008 compliant on site urine drug screening by teaching you the basics right up to the advanced techniques and the latest challenges to medicolegal collection and drug screening.

Regardless of your experience, the InScience **Training Course** is the ideal way to learn in a 'hands on' and friendly environment. The full day course covers everything you need to know about medicolegal collection and drug screening. You will be amazed at how easy it is to manage your practices and procedures and maximise your knowledge. Recommended also for all people involved in corporate drug and alcohol policy management.

WHAT TO BRING: A copy of AS/NZS4308:2008 (available if you need to purchase a copy is www.standards.co.nz or order through Inscience prior to the course), pen for your written assessments, lunch.

Topics include:

- Common drugs and their affects
- Cheating the test and how we deal with this
- Is drug testing lawful
- Legal highs- synthetic Cannabis

- What to do when things go wrong
- Urine or Saliva
- Blood, sweat and Tears
- Limits of detection
- Chain of custody
- Documentation
-

- What you don't test for
- Safety- yours
- Legislation affecting employers and employees

... and much more!

Note: All courses are subject to attendee numbers and may be transferred to alternative course dates with prior notice. Course bookings are limited and on a first paid first confirmed basis.
